The new Scirocco

Power doesn't get much more exciting.

Apart from breathtaking looks, aerodynamic styling and contemporary design, there's one thing that sets a real sports performer apart. Its engine. And here the new Scirocco excels with the exhilarating 2.0 litre TSI 200 PS – proof that power doesn't get much more exciting. Combined with outstanding safety equipment, including ESP, ABS and six airbags, it means you can enjoy an incredible driving experience, safe in the knowledge you and your passengers are well protected.

Live the dream. It's yours for the taking.

Dreams really can come true. As the new Scirocco demonstrates. Because here, at last, is a sports car packed full of style and technological innovations at an affordable price. Giving you all the advantages of a real sports performer – dynamic handling, adjustable suspension, sports chassis and a luxurious interior – all within reach. Designed to turn heads, the new Scirocco will bring a new dimension to your life. So live the dream.

It's yours for the taking.

Drive the new Scirocco and the time of day becomes irrelevant, as optional Bi-Xenon headlights provide exceptional illumination. With sleek headlights enhancing the exterior styling, this is sports design at its best.

...wheels and metallic paint.

Let's be honest, looks matter. And never more so than with a sports car. Which is why the new Scirocco offers so many exciting features. Such as a chrome twin exhaust tailpipe – when specified with the 2.0 litre TSI 200 PS engine, rear roof spoiler and rear tinted windows from the B pillar back, standard on GT models. All contributing to the overall impression that this is really something special. And hinting at the enjoyment to come.

Be prepared for some admiring glances when you drive the new Scirocco. Not only will its streamlined body shape, low front grille and three door design attract plenty of interest, the sporty 18" 'Interlagos' alloy wheels with 235/40 R18 tyres, standard on GT models, ensure your new Scirocco gets noticed.

The new Scirocco. A style icon.

Sit inside the new Scirocco and enjoy a sensory experience. Four individual contoured sports seats with integrated head restraints in the rear ensure the highest levels of comfort, while the leather trimmed three-spoke steering wheel, gear knob and handbrake grip are pure pleasure to hold and 2Zone electronic climate control, standard on GT models, ensures a perfect interior temperature.

Drive the new Scirocco and the sky's the limit. Quite literally, if you go for the optional panoramic sunroof. Not only does it give you an uninterrupted view of the sky above, it also adds an extra dimension of light and space, creating a wonderfully relaxing interior ambience. And letting you enjoy freedom and fresh air at the touch of a button. So you'll have your head in the clouds in more ways than one.
